Plural Names of Edible Fish. A few days ago I was asked by a foreigner, "Why do you say 'two herrings' and 'two soles' and not 'two cods' and 'two salmons?" I do not think my answer was very satisfactory, but the question suggested the thought that there are several cases in which it would be difficult to say whether there

ogues, in treating of plural forms of nouns make no note of the names of fish which do not vary in the piural.

VACATION DAYS.

Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports. No remedy equals De Witt's Witch Hazel Salve for quickly stopping pain or removing danger of serious consequences. For cuts, scalds and wounds. "I used De-Witt' Witch Hazel Salve for sores, cuts and bruises," saya L. B. Johnson, Swift, Tex. "It is the best remedy on the market." Sure cure for piles and skin diseases. Beware of counterfeits. there are several cases in which it would be difficult to say whether there is anything like a consensus of opinion as to whether a plural form of the name of a fish is admissible. We all speak of soles, herrings, sprats, lampreys and anchovies, the singular form never, I believe doing service for the plural. No one, I think, says mackerels, cods, salmons, trouts, breams, shads, carps, plaices, basses, barbels. Sturgeon, perch, mullet, pike, turbot, tunny and skate have not unusually the plural form in "s."

Fishermen and fishmongers are inclined to avoid the plural form in some instances where it is employed by the majority of educated people. In some cases there is considerable uncertainty. This I have ascertained by means of a fair number of tests. Among them are carps, shads, tenches. Compilers of English grammars, so far as my expectations.
